Professional Summary

AI and Machine Learning Engineer with hands-on experience in Generative AI, Retrieval-Augmented Generation (RAG), and cloud-based backend systems. Proficient in building production-ready AI applications using Python, FastAPI, LangChain, and large language models. Experienced in developing scalable APIs, AI-driven data pipelines, and deploying end-to-end solutions on AWS, GCP, and Azure.

Skills

Programming & Scripting: Python, C++, Java, SQL, Google Apps Script

Libraries & Frameworks: Boto3, Scikit-learn, TensorFlow, Pandas, NumPy, Streamlit, LangChain, FastAPI

Tools & Technologies: GenAI, RAG, ElevenLabs, Modal, Git, GitHub

Cloud: GCP, AWS, Azure, DynamoDB

Experience

Generative AI Developer Intern

Oct 2025 – Present

AI Zoned, Gurugram, Haryana, India

- Engineered a **full-stack AI-driven CA exam preparation** platform using Next.js, FastAPI, and AWS, integrating Gemini LLMs and Qdrant to deliver automated answer sheet grading and semantic study material retrieval.
- Built a **voice-based conversational** AI System using ElevenLabs and Twilio for real-time interaction workflows.
- Developed backend services using FastAPI with JWT authentication and DynamoDB for scalable data handling.

Projects

Technova Society Website | [Link](#)

Dec 2025 - Mar 2026

Next.js, TypeScript, Tailwind CSS, Framer Motion, Supabase, Resend

- Scaled impact to 800+ students** by building and deploying a full-stack platform using Next.js and Supabase, centralizing technical society event management with a gamified dashboard and real-time QR-based attendance system.
- Optimized on-ground operations with 5,000+ QR scans** by engineering an end-to-end hackathon management system featuring team registration, secure organizer dashboards, and a mobile-first gate tracking solution for a 24-hour event.

Gmail Newsletters to Podcast | [Link](#)

Gmail API, Gemini 2.5 Flash, ElevenLabs, Pydub

- Built an **automated pipeline** converting newsletters into audio summaries using Gemini Pro and ElevenLabs.
- Used Gemini Flash for summarization, ElevenLabs for text-to-speech, and Pydub for audio stitching.
- Reduced manual reading time by approximately **1 hour daily**.

Education

Sharda University

Aug 2023 – May 2027

Greater Noida, Uttar Pradesh, India

Bachelor of Technology in Computer Science (AI & ML Specialization)

Certifications

- Machine Learning Specialization – Stanford & DeepLearning.AI
- AWS Cloud Quest: Practitioner – AWS

Positions of Responsibility

President, Technova – Technical Society of Sharda University

Sept 2025 – Present

- Leading 70+ members across 8 technical domains, driving execution of technical initiatives.

Volunteer, MLOps.Community - Delhi NCR

Mar 2025 – Present

- Supporting event execution and community coordination.
